FCC MAIL ROOM

In the matter of)
)
Admendment of CFR section 73.202)
of the Commissions rules)

PETITION FOR RULEMAKING

The following technical exhibit, and petition for Rulemaking, has been prepared for, and on behalf of, Clyde and Connie Lee Scott, D.B.A. EME Communications, 293 JC Saunders Road, Moultrie, Georgia 31768. The purpose is to request the assignment of channel 272A to Jacksonville, Georgia as that cities first aural service.

Jacksonville is located in Telfair County Georgia. Jacksonville is listed with the United States Census Department and has a population of 128 persons. The population of Telfair County Georgia is 11,000 persons. The total population within the proposed 60 dBu contour is 25,519. This study clearly shows that the public interest would clearly be served by adding an additional service to 25,519 persons.

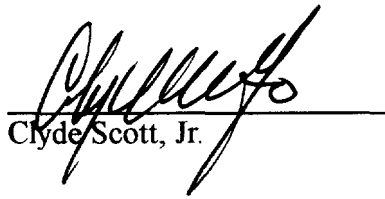

Exhibit-1 is a spacing study that clearly shows that this channel can be allotted to Jacksonville without any additional interference to existing or proposed facilities and is in full compliance with CFR section 73.202 of the Commissions rules.

Exhibit-2 is a Digital-Line-Graph plot of the proposed 70 and 60 dBu Contours. This exhibit clearly shows that the proposed 70 dBu (3.16 mV/m) contour will completely encompass the city of Jacksonville, Georgia.

It is concluded that channel 272A can be assigned to Jacksonville, Georgia in accordance with CFR section 73.207 of the Commissions rules, without any deleting or substitution within the present table of allotments, and therefore should be granted.

Once channel 272A is assigned to Jacksonville, Clyde and Connie Lee Scott, D.B.A. EME Communications, will file an application with the FCC, and once granted, will build and operate this facility within, and for, the people of Jacksonville, Telfair County, Georgia

Respectfully:

Clyde Scott, Jr.

Connie Lee Scott
